Straight Stair-Chairlift

The Stair-Chairlift is one of the most technologically advanced Stair-Chairlift available, helping people to reclaim full access to their home. It's the safe, comfortable and simple solution to difficulty with the stairs use.

Every aspect of the Stair-Chairlift S-120 has been designed for the highest standards of comfort and safety. Our years of experience have helped us to create a Stair-Chairlift that is built purely with the user in mind.

The Stair-Chairlift S-120 is powered by a maintenance free DC power pack, which ensures your lift works even in the event of a power cut.

The Stair-Chairlift S-120 smooth start/stop action means just that, no sudden jerks or jolts; and the whisper-quiet motion of the lift blends unobtrusively into your location.

Another feature pioneered by S-120 is the on-board diagnostic control panel which alerts you to any potential problems before they arise, (e.g. Stair-Chairlift S-120 has accidentally been switched off or incorrectly parked).

You can rest safe in the knowledge that tens of thousands of homes have already enjoyed the Stair-Chairlift S-120 experience.

| Dimensions | mm | inches |
|-------------------------------|------|--------|
| A Overall height (from floor) | 1020 | 40 |
| B Height of seat | 495 | 19.5 |
| C Overall depth (from wall) | 585 | 23 |
| D Overall depth (when folded) | 325 | 13 |
| E Width of footrest | 305 | 12 |
| F Overall width | 560 | 22 |
